

City of Waldo First Step Meeting Process

If you are interesting in gathering information about the City of Waldo's development process prior to beginning development plans, then the City recommends that you apply for a First Step Meeting.

The First Step Meeting will provide you information on land use, environmental issues, regulations relevant to your proposal, and the required City processes.

To initiate the First Step Meeting process, submit a completed application and as much information about your proposed project as possible. If you are not the property owner of record, you will need to submit a property owner affidavit giving you the owners' permission to conduct a First Step Meeting on their property.

Within 5 business days of submittal, the City will contact you to schedule a First Step Meeting with City staff.

Thank you for your interest in the City of Waldo. If you have questions, please contact City Hall at (352) 468-1001.
